March 10th 1909.

My dear Mr Akeley:

Many thanks for your letter. Give my regards to McCutcheon. I look forward eagerly to meeting you both in Africa. You may mention that arrangement to Col. Hayes-Saddler. My only hope is that I may be able to help you to get the elephants, and I will do anything I can in reason do to meet you and go hunting with you. If by that time I find they are common in Uganda, perhaps we can go in Uganda for them. I feel strongly tempted to try that shot at the atlas vertebra. The head model is simply fine.

Sincerely yours,

*Theodore Roosevelt*
